From: Trooper David M. DiCicco #3782

Subject: Interview of [REDACTED] (D.O.B. [REDACTED]) at 1 Meadows Avenue, Canton, Ma 02021 relative to the investigation into the homicide of her uncle, John O'Keefe.

Case: 2022-112-33

1. On Sunday, January 30, 2022, at approximately 1:00pm, I, Trooper David DiCicco #3782, was present at 1 Meadows Avenue in the Town of Canton. The residence is home to homicide victim, John O'Keefe, as well as his niece, (c), and his nephew, (c) (D.O.B. (c)). I had an appointment to meet with Paul O'Keefe, John's brother, and ask some questions about the relationship between John and Karen Read. Investigators were also looking for someone in John's family to possibly provide the passcode to his phone.

2. Upon completion of my brief meeting and conversation with Paul, he brought his niece, (c), upstairs and the three of us talked for five minutes. I asked (c) to tell me about Friday night. (c) said her Uncle John's friend Mike came over with his daughter, [REDACTED] whom is (c)'s friend. She said John and Mike went out and she and (c) stayed home until about 11:00pm when Mike came to pick her up. (c) said she went to bed when (c) left.

3. (c) said Karen came into her room at about 4:30am and told her that John never came home. She ran into the other room to get (c)'s phone, because (c) is not permitted to have her cell phone in her bedroom overnight. Karen asked (c) if John had contacted her so she looked at her phone and observed a text from John at about midnight asking her if she was okay. (c) said she missed the text because she was sleeping. Karen told her to call John and she did, but he did not answer the phone. (c) said Karen then began calling (c) dad, Mike, and his wife. Karen used (c)'s phone to call Jen McCabe. Karen then went out to look for John around 5:00am. (c) did not wake up and hear when Karen came home prior to 4:30am when Karen entered her bedroom.

4. (c) said she doesn't know the passcode to John's cell phone but she may be able to guess the login for the Ring camera system. She said John used the same password for most things and it was likely (n) or (n). (c) said if he needed a symbol for the password it would probably be (n). I thanked (c) for talking with me and the interview was terminated.

Respectfully submitted,

Trooper David DiCicco #3782
